SOMETHING NEW

The Unity Vase from Firas Yousif's collection with Pairpoint Glass Company can be made in any color, such as a soft blue or moody gray.

CRYSTAL CLEAR

Long gone are the days of using your best crystal and china only on special occasions: Newlyweds are using their best pieces every day. To this end, bridal couturier

Firas Yousif of Firas Yousif Originals partnered with Cape Cod-based Pairpoint Glass Company (the country's oldest of its kind) on a collection of bespoke crystal pieces like the Unity Vase and cake toppers inspired by his bridal designs. "My gowns are designed exclusively for each client," says Yousif. "The ultimate goal is to create a custom, timeless yet modern design of the highest quality. Just as is required for my gowns, creating these pieces of crystal art takes time and is carefully executed by experienced and highly skilled artisans." Each custom piece can be ordered directly through Pairpoint or Firas Yousif Originals. *Pieces from \$2,500, 35 Newbury St., firasyousifororiginals.com; pairpoint.com —Jessica Bowne*
